

digital microscopes

test & measurement

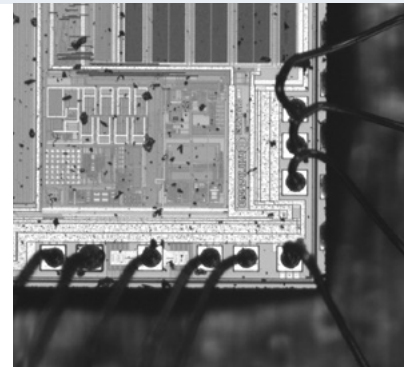

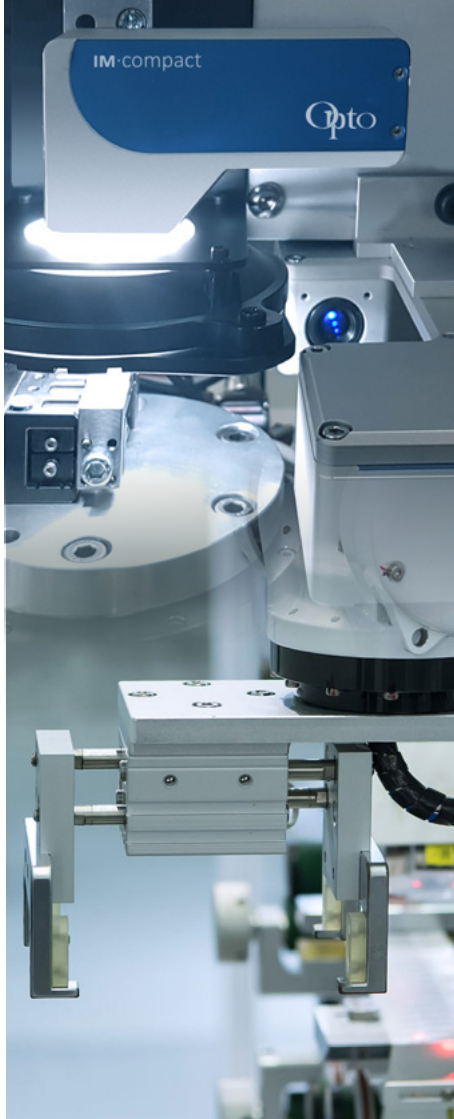

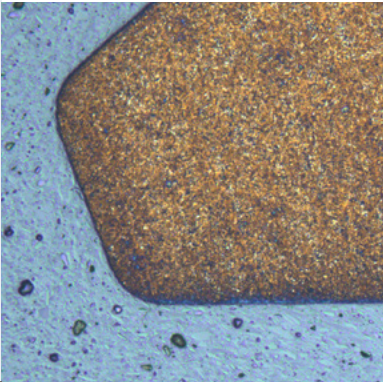

Quality control

- **Semiconductor**
SMD inspection, solder joint analysis
- **Automotive**
quality control, process control, cylinder inspection
- **Metallography**
hardness testing, crimp analysis, weld inspection
- **Energy**
solar wafer inspection

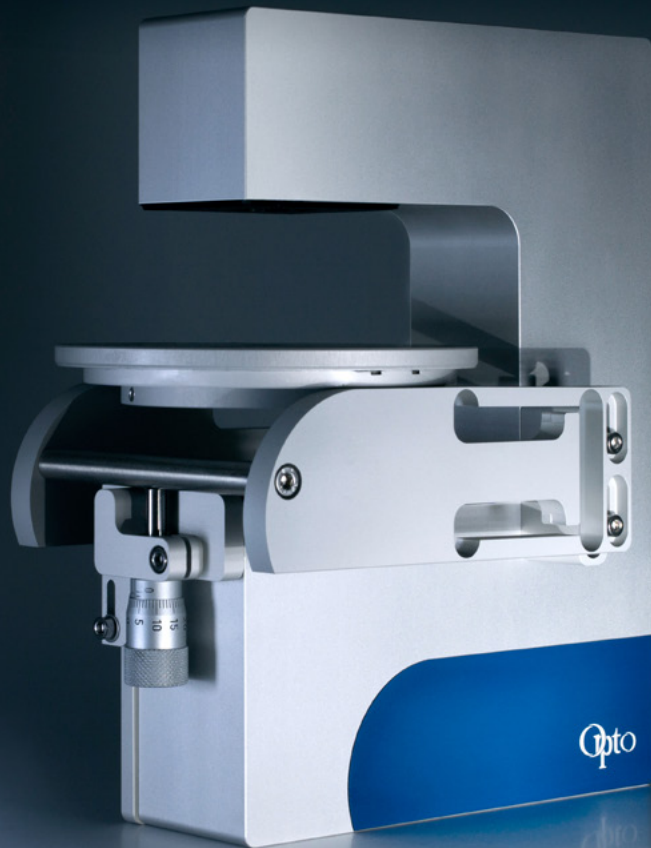

... for measuring and classification

... for materials management

- pre-calibrated modules, ready for immediate use
- integrated ring and coaxial illumination
- small footprint
- free easy-to-use OptoViewer 2 software
- micrometer/pixel resolution with large FoV
- high contrast and colour stability
- image reproducibility
